President's Message *December 2014*

Abraham Lincoln declared Thanksgiving a national holiday in 1863. There had been an on-again-off-again celebration for years before that, but nothing official. It is a Fall event that in its origins celebrated a bountiful harvest before the cold of winter. Today the original intent of providing thanks seems lost in a confusion of eating, drinking, football and Christmas shopping. That's unfortunate, because providing thanks is something we all should engage in with sincerity and dedication of thought.

The Fall season is the end of the calendar year, which also means the end of the car season, at least here up north. Our club had several events central to driving old cars, maybe not as many as in the past, but something every couple of weeks on average, with the Marion car show being the big one, as always. We'll end the year with a holiday event at Vienna Gardens in Phelps, with the club socializing both together and with some folks perhaps not as fortunate as ourselves. Maybe that's where providing thanks come in, as well as honoring the spirit of holiday giving.

My term as President ends at the end of the year, after about two and one-half years. Dick Stearns will assume the role and I wish him the best in 2015, as well as best wishes to our entire slate of new officers. I have enjoyed working for you and thank you for giving me the opportunity! It's made for some lively meetings as I've learned we have no shy members! But we've made a few decisions to move the club in new directions to accommodate changing times and changing club demographics.

Hope you had a Happy Thanksgiving! And Happy Holidays!

Matt

Vice- President's Message

Greetings Folks,

First of all, to all of our outgoing officers and board members, thank you for your years of service and dedication.

As antique and classic automobile enthusiasts, we all delve into history to some degree. Some nice weekend, consider a trip to The Genesee Country Museum. This is a real gem, right in our back yards. While you are there, as you tour some of the older homes, take a good look into the dish cabinets. Close observation will reveal our modern dinner plates of approximately 12" diameter will not fit in the cupboards. The standard dinner plate in the earlier days of our country was only approximately 10" diameter. This is by way of saying, even our modern, larger dinner plates are hardly adequate to do justice to all the wonderful food we enjoyed at our ham dinner in November. As a club, we are truly blessed with a membership whose love for great food and good cooking is on a par with their love for their special vehicles. Thanks to everyone.

On a more personal note, thanks to all who helped make my 70th birthday celebration a wonderful time. How Brenda managed to sneak this one past me remains a mystery but, I was duly surprised. Thank you.

I look forward to seeing everyone at our December 10th Christmas gathering at Vienna Gardens. Please remember your plates of goodies and the gifts for the residents.

Dick

International High Wheeler

The International High Wheeler arrived in 1905. This style of buggy car would remain in production at International long after most of the industry had abandoned this style. There was a small market for these tall-wheeled vehicles among traditional horse and buggy owners and rural folks. The buggies offered enormous ground clearance and ease of fording streams, where no bridges existed. Initially, they offered little in the way of weather protection, although later models were adapted with Express or Canopy bodies, and roofs, which offered sun protection. They were right hand drive initially, but in a 1914 they converted to left-hand drive. Powered by air-cooled two cylinder VW-like engines, they updated to four-cylinder engines in the 1915 model. IHC would continue to build variations of the High Wheeler until 1920. By then, this style of vehicle was so outdated that only rural folks with need for such a vintage design would have considered one.

This 1912 model features a 20 horsepower engine and a two-speed transmission. It features the passenger body finished in natural wood, with two rows of seating for four.

AACA Renewal Time

The end of the year will be here before we know it...

A renewal form was included with your September/October issue of *Antique Automobile* magazine. Simply fill out the form and send it back to the office with a check or credit card information.

Hank will be accepting your Wayne Drumlin dues. Please mail your check for \$10 to:

Buy, Sell or Trade

For Sale. 1967 Buick Electra convertible. Outstanding original condition, great paint and chrome, spotless interior. One owner, about 96000 original miles, and always garaged. Last on road in '08, in dry storage since then. Call Alan at 585/967-0726

Congratulations

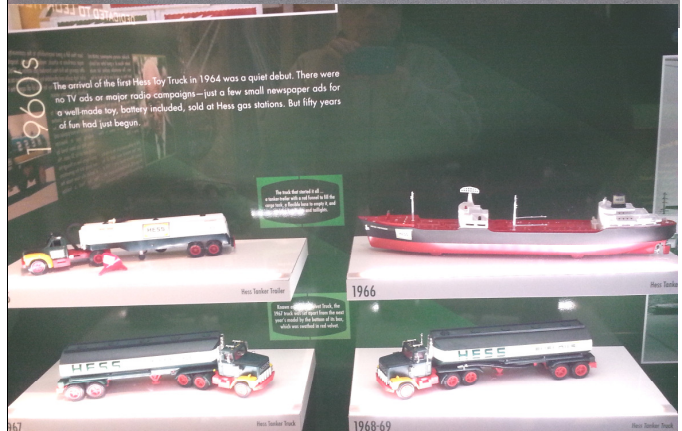

to Alan and Ann Canne on the adoption of their son, Jacob on Friday, November 21st. Maybe a future Wayne Drumlin's member.

2015

If you have any thoughts/ideas for events or speakers for next year, please let Pete Empson know. We will be working on a calendar to present to the club in early 2015.

Hess Trucks on the Move

In celebration of the Hess Toy Truck's 50th anniversary, the Hess Toy Truck Mobile Museum made a stop in Farmington. The Mobile Museum is traveling across the East Coast, making over 30 stops through the middle of December. One of the stops will be at the AACA Museum on November 30th. Here are a few photos of our visit a few weeks ago. Jean
