President's Message

November 2016

Greetings Folks,

Welcome to the battle of the seasons known as Fall or Autumn. There is so much to do this time of year. The air conditioners have to be taken out of the windows and put away. Screens need to be taken down and storm windows put up. Garden hoses need to be drained and put away for the winter. The leaves need to be raked up and one last mowing of the lawns before the snow flies. Gardens need to be cleaned up. If you heat with wood, the wood shed needs to be filled. And, perhaps most importantly, our cars need to be prepared for their winter's nap.

Have you added stabilizer to the gas tank or do you drain the fuel system for the winter? Is there sufficient antifreeze in the radiator or do you drain the cooling system? What about the battery. Is it disconnected? Do you bring it inside for the winter? Do you put a trickle charger on it or just let it be? If you take the battery out of the car, where is it sitting? I have been told that a battery should never be set on a concrete floor as it will kill the battery. I do not know whether this is true or not and I have never felt the need of possibly sacrificing a good battery to check it out.

When is the right time to take care of our cars? We have had a spell of unseasonably cool weather in late October but the outlook for early November is warmer than normal. Is this Indian Summer? Actually, just what constitutes Indian Summer? Some people say any stretch of mild weather after a black or killing frost is Indian Summer. Others say we need Squaw Winter with the first snow fall on the ground before we can have Indian Summer. Maybe we have the time for one more ride to enjoy what is left of the fall colors. The choices are up to you.

Enjoy.

Hershey 2016

We arrived in Hershey on Tuesday around 1pm to set up with all our treasures for sale. We were joined by Pam, Steve, Norma and Dave in the Red Field. Before we could unload the back of the pickup, we had made our first sale. Wednesday was another good day and at nighttime we toured the car corral which had many beautiful cars. This is the first year that we walked the whole corral. Thursday was another great weather day. In the evening we took a stroll to the Chocolate Field to visit with Jim and Pat Bollman. We had a good visit and they said to tell all the Wayne Drumlin members hello. It sure sounds like they are enjoying themselves in their new home in Tennessee. On Friday Pete had a chance to go to the sta-

dium to watch the Hughes High Wheeler Event. This was the first time he attended this and thought it was very entertaining. In the afternoon we visited the Orange field to check out a few vendors and found Marty and Betty Reilly at their Flea Market spot. Had a nice visit with them. Friday night, we packed up the truck due to the forecast of rain on Saturday morning. This time the weatherman was correct. We visited the car show field early, saw Charlie and Joe and wished them success and then headed home as the rain began to fall. We couldn't have asked for a better trip. Too bad it had to rain for the Show.

Owner Leslie Adriaansen

RE: History of My 1955 Chevy

I grew up on a muck farm Marion. My first car was a 1955 Chevy - the same model and color as the gem I have today. I purchased it used with 8,000 miles on it . The story goes that the original owner got married and could not afford both a new car and a new wife. He traded the car and I was fortunate to buy the car. I drove it for three years and traded it for a new one.

As the years passed, I had the urge to buy another one like the first one. My wife gave me a 1/16 scale model from Franklin Mint for Christmas in 2001. We kept looking for the real thing. We found one in Florida in 2003 and my friends found one in Michigan in 2005. I did not pursue either one. In August 2007 one of my friends saw this one for sale parked on routes 5 & 20 in Bloomfield about a week before. My wife and I went to see the car the next morning. Fortunately it was still there. I purchased the car and had it restored during the winter of 2008 -2009. It is a classic stock car.

We have attended several local car shows and took it to Florida for the winter in 2013 and 2014. My wife is now in St Ann's Care with late stage Alzheimer's Disease. I will continue to show the car as much as possible. I will look forward to seeing the car on the cover of your November News Letter.

Sincerely,

Leslie Adriaansen

Editor's notes:

I would like to thank Leslie for sharing the above information and permitting us to use his car as our November cover photo. He was rewarded for his efforts in braving the inclement weather of our 39th show with trophies for the best GM, best in class, and best of show. This beautiful car will be the subject of the Dash Plaque for our 40th annual show. Leslie is seen receiving his Best of Show trophy above.

Thanks Leslie
