President's Message April 2010

It's been a great early spring. With the snow gone and the temperatures gradually warming, thoughts turn to the coming summer and the fun we'll once again have with our cars. So when you have the chance, get that special car out, wash it off, check it over, and go for a ride. We also start to welcome back those who've had the luxury of spending the winter months in warmer climates. It's great to have them back with us as we plan our summer activities.

During the March meeting, we spent considerable time to develop a portion of our 2010 events calendar. Some interesting events are planned, but it's not too late to include an activity you'd like to host. As I've said before, it's important that we get our cars out for the public to see, and maybe we'll give someone else the old car bug!

Pamela and I will be traveling to the AACA Southeastern Division Spring Meet at the Charlotte Auto Fair in early April. We've never been to that event before, but it sounds like it's a close second to Hershey. We shall see! Also, if you haven't registered a car for the Judged, HPOF, or Driver's Participation classes at the Eastern Division Spring Meet at Canandaigua, it's not too late. If you have any questions, feel free to give me a call.

Our next club meeting is April 21st at the Phelps Community Center. If it's been a while since you been to a meeting, consider coming, you just might have a good time!

Ladies and gentlemen, start your engines,
-Steve.

This is no longer the case and club members are encouraged to wear their Wayne Drumlins shirt (call Jean Empson if you want to order a shirt).

You can also purchase the GVAC shirt. It was also discussed that advertising space was avail-

S. Heald received notification from the AACA for insurance certification for club officers. The insurance certificate for the Marion car show will be requested.

AACA Museum

Catch them while you can... **Competition Motorcycles, GM Futurliner, Camaro & Firebirds** *exhibits end soon!*

Motorcycles

From their inception during the last decade of the 19th century, motorcycles have been associated with speed and excitement, and from then until now literally hundreds of manufacturers have capitalized on that image by investing in racing motorcycles and teams. Many of these well-known and lesser-known marques are featured in the "Fast from the Past". More than forty motorcycles owned and restored by members of the Antique Motorcycle Club of America are placed on display; their styles and vintage will cover every era and every aspect of the motorcycle sport, from the fearsome board trackers of the teens to road racers of the 1970's capable of speeds approaching 200 mph.

GM Futurliner

General Motors' dramatic, bus-like Futurliner was created for the Parade of Progress display. Only 12 were built, of which eight are known to exist, and five of those are in utter disrepair. Don't miss your chance to see Futurliner, one of the most significant collector vehicles of all time.

Camaros & Firebirds

This special exhibit features the history of GM's Camaros and Firebirds. Every generation of these "pony" cars from 1967 - 2002 will be included! The exhibit will highlight high-performance and competition versions plus factory prototypes. The Camaro will be revived in 2010 with a new model that will also be on display as part of this exhibit. Another featured car will include the Trans-Am Firebird once personally owned by Burt Reynolds while filming the "[Smokey and the Bandit](#)" movies.

Remember AACA members get into the [AACA Museum](#) FREE! Bring your membership card next time you visit.
