## President's Message December 2010

Thank you. I want to thank everyone in the Wayne Drumlins region for allowing me the privilege of serving as your president this past year. I've enjoyed working with you in making decisions, planning events, and socializing. Together, we have helped the club make some positive progress, added some new members, contributed to the success of an AACA national meet, and had a good time doing all of it. It has been my pleasure to take an active role in guiding our club.

To single a few out, I want to thank Bruce Knowlton for serving as Chairman of the Board, and for being there for support when it was needed. I want to thank Sally Morrow, Charlie Bauder, Matt Canavan, and George O'Neil of serving the club as board members this year. They have more of an impact on how the club functions than you may know. To Leslie Askin, thank you for serving as Secretary. It is the Secretary who keeps a club running, and you have done a great job. To Loren Gifford and Rita Canavan, thank you for your continuing dedication to our club. And where would we be without the great job that Pete and Jean Empson do every month in producing the Headliner.

I know everyone will support our newly elected officers during the coming year. President-elect, Loren Gifford, will do a great job working with Matt Canavan as Vice-president, Leslie Askin continuing as Secretary, and Rita Canavan continuing as Treasurer. With Bruce and Matt leaving the board, congratulations to Pat Race and Jim Askin for being elected along with Charlie Bauder for being re-elected.

A big thank you goes to Amy Ressue and her crew for once again heading up the annual election meeting ham dinner at Marion. As usual, the food was a delicious warm-up for Thanksgiving.

I'm looking forward to see many of you at our Annual Banquet on the 5<sup>th</sup> at Belhurst Castle. Here's wishing you a happy holiday season and a healthy and prosperous 2011.

Keep the motor running,  
Steve.

## News from the Library and Research Center

Last year I had the opportunity to speak with the AACA Museum's large group of volunteers. Among many things, I talked about my approach to customer service. Simply put, I treat everyone the way I would want a stranger to treat my grandmother and we perform research as if we are researching something for our own use. This is just a continuation of a long history of quality customer service here at the library. Evidence of this came in the form of a mid-summer phone call from Mr. William Seuch of Norwalk, CT. During that call he stated that he wanted to donate his 1968 Chevrolet Impala to the library. It was his wish that the vehicle be sold to raise money for the library! He said he was donating the Impala because former librarian Kim Gardner had been so helpful in the past.

It should be nice to know that no matter who you are you will be getting the best service possible here at the library. It doesn't matter if you have a \$1-million dollar classic car or a rusty project with a tree growing out of it. We do this not because we think you will donate something to us in the future, but because we take pride in the work we do and our reputation among library users.

The Impala will be sold on Ebay in December.

Stay tuned to *Speedster*, the library's web & Facebook page, and future issues of *Antique Automobile* for more information. Most of all, thank you Mr. Seuch!!!

# Pass it On

Jim Bollman

There comes a time when all big collections are broke up or passed on. Phil Mendola has been collecting Crosley's for over 40 years. He has been slowing down the last few years and decided to sell his whole collection while he still had a say on where it went.

Phil went to the Crosley Nationals this year with the hopes of finding that one person that would appreciate his Crosleys and parts. He knew he could make more selling out by the piece but that would take a lot of time an effort and it seemed a shame to break up the collection. I ran in to Diane and Ralph on Thursday night of the Nationals (flea market opens on Friday). As we talking she said she was at the Nationals to buy parts. She has quickly built a large Crosley collection but didn't have many extra parts to restore and repair them. I told her about Phil and his collection. Sounded like a match to me and I told her where Phil would be setup with a sample of his parts and hand outs of what he had at home. By the time I saw them on Friday morning the deal was done and the big move was being planned.

Diane and Ralph showed up at Phil's a few weeks later with another couple and two trucks, one pulling a 16 foot open trailer and one pulling a 28 foot enclosed. I arrived after the loading had already started and joined in the fun. Several hours later Phil's 1950 Wagon was loaded on the open trailer with the inside stacked with good clean parts. The trailer pulling the 16 footer was full of all kinds of goodies including a rebuilt engine ready for installation. The truck towing the 28 footer was filled mostly with extra rear ends and such that were hard to pack around the cars. The 28 footer was filled with a 51 Convertible (fresh out of the barn condition), a 51 Super Sports (long term restoration in progress), and lots and lots of parts. Parts were loaded in both cars, under both cars and around them. A second layer was added for some hoods. When it became obvious that it all wasn't going to fit and not go over weight on the trailer, they closed the doors and headed South to return in a few

weeks with the 28 footer for another load including an almost rolling chassis and lots of sheet metal parts. Diane seems very happy with her new stash and Phil is doing well with the knowledge that his collection will be appreciated. The fellow that drove the extra rig was pleased to because Phil sold him a dressed out flathead V8 Ford engine and a block of rust and steel that resembled a Model A engine.
